

K-LOVE is what I listen to the majority of the time that I am not the road traveling every week. It is so nice that i can listen to it no matter how far I travel because I can follow it on my FM dial. It is also a positive radio station with encouraging songs that lift me up on difficult days. If K-LOVE was to be displaced by a LPFM broadcaster, I would no longer be able to access KLOVE and there are no other stations in my area like that. KLOVE has my kind of music where the other stations in my area are more mello and I do not relate to them as well. I know there are a lot of young people in my area that would agree and would be highly disappointed if KLOVE were to be off the FM dial. Plus, the positive impact it can have on kids in our society is astounding. Please don't give LPFM stations priority. Thank you for your time.
